# SUMMARY

*„During our activities with young people, in the last couple of years there were many situations in which they (Roma young people) requested our support to choose a faculty or to find a suitable job after finishing their studies. The pandemic has deepened even more their isolation&need for support and we started receiving more&more questions. ”*

*"Our project, Together we create the path, was created to cover a common need identified by the 3 organizations involved:*

*developing our capacity to support career orientation for Roma young people and other minorities through transnational cooperation*

*1. Mapping the methods used in each partner country to guide Roma and other minorities in career orientation. The outcome is a comparative methodology between the 3 countries compiling all existing methods into a report.*

*2. Developing career orientation knowledge and skills for 15 members of the 3 organization through 1 training and 2 workshops during the projec*

*3. Exchange transnational career orientation good practices between the 3 organ. in order to gather best methods and tools into a toolkit.*
